

## **Radiologic Technology Degree Program at Cleveland University-Kansas City Licensure Disclosure Statement**

The associate-degree-level radiologic technology program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT), <https://www.jrcert.org/>.

Graduates of the program will be eligible to sit for the national certification examination for the radiologic technology administered by the American Registry of Radiologic Technologists (ARRT). After successful completion of this exam, the individual will be a Certified Radiologic Technologist. Not all states require licensure in order to practice; however, state licenses are usually based on the results of the American Registry of Radiologic Technologists (ARRT). To determine state requirements for licensure, access the American Society of Radiologic Technologists website, <https://www.asrt.org/main/standards-and-regulations/legislation-regulations-and-advocacy/individual-state-licensure>.
